# CONTINUOUS OPENING UNFRAMED SUNBURST OVER PANELS ORDER FORM KEY

Use the following key as a guide when completing the shutter specialty shapes order form. Items marked with an asterisk (\*) require a surcharge.

**1 Specialty Type:** Use specialty shape symbol identified on front  
**EXAMPLE:** A1 = Perfect Arch

**2 Product Code:** HH = Heritage® hardwood shutters  
 NS = NewStyle® hybrid shutters  
 BW = Bridgeway® specialty shapes

**3 Color Number:** Specify color number.

**4 Mounting Style:**  
 OM = Outside mount overlaps the window opening.  
 IM = Inside mount fits within the window opening.

**5 Returns:** *Unframed specialty shapes only.*  
**YES** = Include returns on the specialty shape.  
**NO** = Do not include returns on the specialty shape; or inside mount (IM).

Returns on quarter circles and extended quarter eyebrows are both vertical and horizontal, as shown at right. If a return is desired in one direction, but not in the other, indicate this in Special Instructions.

*Note:* Returns add 1/2" per side or 1" overall. Returns are not available on T1 - T4 specialty shapes or inside mount applications.

**6 Companion Specialty:**  
**YES** = This is a companion specialty.  
**NO** = This is not a companion specialty.

Companion specialty example:

**7 Buildout:**  
 1 = Single buildout projection\*  
 2 = Double buildout projection\*  
 Buildout projection comes preattached to the back of the specialty shape.

	NewStyle Bridgeway	Heritage Unframed
Single Buildout	1"	1"
Double Buildout	2"	2"

**8 Adders for Overlap:**  
 For specialty shape outside mounts (OM) only, use the overlap at right to determine the overlap of the shape around the opening and the ordered width for pricing.

**Unframed Specialty Over Outside Mount Shutter Below**

Recommended overlap per side (includes 1/4" reveal):

Heritage Frames	NewStyle Frames
L1 = 1 5/8"    L2 = 1 3/8"	L11 = 1 5/8"    L12 = 1 3/8"
	L13 = 1 3/8"

When the shutter below is framed inside mount (IM), using any Z-Frame, the specialty above should be an outside mount to line up with the shutter below. Use the correct overlap to the right to determine the overlap around the opening and the ordered width for pricing.

**Unframed Specialty Over Inside Mount Shutter Below**

Recommended overlap per side:

Heritage Frames	NewStyle Frames
Z1 = 7/8"    Z2 = 1 15/16"	Z11 = 1"    Z12 = 1 5/8"
Z3 = 1 5/8"    Z4 = 1"	Z13 = 7/8"

When the shutter below is inside mount (IM) hangstrip or direct mount, the specialty should be an inside mount (IM) and there would be no frame adder.

**9 Width for Pricing:** Opening width plus the left and right overlap.

**10 Price:** See base price grid in the appropriate section of the Hunter Douglas *Full-Line Reference Guide & Base Price List*.

**Measurements:** Identify opening # and specialty type in space provided. Enter appropriate A, B, C, D, E and F measurements.  
 A = Opening Width  
 B = Opening Height  
 C = Opening Rise  
 D = Opening Center Height  
 E = Overall Opening Height  
 F = SBS Height. For (IM) the opening height for the shutter below the specialty.  
 For (OM) the framed shutter height of the shutter below the specialty

**Variable Radius:**

Worksheets and order forms have been designed to effectively replace templates for most openings. Variable radius openings are an exception and require an accurate template. If you have a variable radius arch such as the three examples to the left, send a template.

**Note that templates affect lead time and may incur additional surcharges.**
